I have had a discussion with iSight about what is really needed from us at this stage for data migration. It is not dummy data but a simple field crosswalk.

Attached is a list of the fields in our current system. Dale has a list of the fields in the new system. What iSight needs is someone to match the fields in our system to the fields in the new system. The Ombudsmen should be able to do most of the work and run it by IT for sanity checking.

This will allow the ombudsmen to control their deliverables a bit more and have a better understanding of how the data will fit into the new system.

Thank you,
-Kevin
