#84 - Director Phil's top things to see & do in state parks - Catch a H. Cooper Black sunrise or sunset at Goose Pond. If you can be on horseback or walking with your dog, they are over the top! Find more info on the park here: <https://southcarolinaparks.com/h-cooper-black>

South Carolina State Parks H. Cooper Black is a recreation and field trial area. The rules for pets on this park are a little different. Pets must be voice command controlled or kept on a leash or in a kennel while in the camping area or within 1/4 mile of the camping area. They do not have to be on a leash on all areas of the park.
