I was just wondering it's not possible to post photos anymore? I was going to post my painting of Mills Creek Falls at Jocassee on the Facebook page and didn't see the option!

Hi Tom. I'm not sure what's going on. I had folks post photos to our Facebook page as late as yesterday evening and throughout the weekend. Maybe it's a setting you have on your page or phone? I'm not sure. It has not been restricted on our end and other folks are able to post.
