Dear Governor Haley.

I'm writing you hoping that you can give me some advice. Maybe you can help us by telling us what we can do. I'm Rhonda Conker, my husband is Ronald Conker. For years he been sick with a bad heart and now he has a pore maker and only 20% of his heart working. He is 74 years of age. I'm 61 I work at the rest area of 177 in Rehburg the weekend. My husband get S.S. but with all the med. bills, and then 2 years ago I had to have surg. and didn't have ins. and now we have all the bills coming in and there not enough money to pay them. We can't even buy green, the way most people do.

We need It. I'm not a smart  
person. I very depend on my husband  
and all he do is sit and cry because  
everything is bills and we just have  
more bills in we do money most of  
them are dr. bills, hospital bills  
we at the end of our rope.

Please help us. I want my  
husband to live the rest of his  
life and not have to walk up  
everyday and worry.

Thank You

So much.

and now the power bill is up to \$7.00  
we don't know what to do. It seems
