Re: Confederate Flag Issue

This is a request to respectfully ask that you not approach our Legislators in any manner to sway their vote on the flag issue. I understand it is important to you to project your image as "one who was first to the table" to ask for the flag to be taken down, done so as to enhance your possible chance to run as a Vice Presidential running mate. We see through that. But please put your personal aspirations aside and listen to the people of your State. Study the history of our State. It is a slippery slope you are going down which will result in many more rights being taken away. And it will lay at your feet.

Thank you ~
