In the mid 1960's the Department purchased a 76-acre borrow pit site (less a 2.6-acre road) for \$10,668.56 while constructing improvements to area roads and bridges. Because the site had not been fully used for some time and is no longer needed, DEA Robert Clark determined that the property was surplus and should be liquidated from the Department's inventory. An appraisal was ordered and completed by MAI appraiser Gary Pruitt. The Real Estate consultant has presented the Department with an offer to purchase, which is above the appraised value, and has been determined to be acceptable. An appraisal was ordered and completed by MAI appraiser Gary Pruitt. The Real Estate consultant has presented the Department with an offer to purchase, which is above the appraised value, and has been determined to be acceptable. Therefore, a Quitclaim Deed for approximately 8.4 acres of land to Trademark Investments, LLC was executed on July 12, 2004 in consideration of \$150,000.00.

Therefore, a Quitclaim Deed for approximately 0.13 of an acre of land to John Larry Weil was executed on July 30, 2004 in consideration of \$15,681.00.

The subject property was placed on the market through one of the Department's Real Estate Consultants. The Grantee offered an acceptable price over the appraised value. Therefore, a Quitclaim Deed for approximately 1.2 acres of land to WWD Properties, LLC, was executed on August 17, 2004 in consideration of \$155,000.00.

15. File 32.354 / Road S-274 / Lexington County / Second Congressional District

During construction of improvements on Road S-274, under File 32.354 in Lexington County, near the Town of Lexington, the Department acquired right of way for Road S-274, by Condemnation from L. Preston Corley dated July 21, 1953.

A request was received from the adjacent property owner's attorney asking the Department to convey its interest in the fee ownership of a 50' x 50' triangle, in order for the Grantee to satisfy the title insurance company's conditions. This action will clear title for the Grantee and protect the Department's 50' x 50' easement. Therefore, a Gratis Quitclaim Deed for approximately 0.03 of an acre of land to Amanda Hess Corporation was executed on August 31, 2004.

16. File 10.120A / US Route 17 & S-1552 / Charleston County / First Congressional District

A request was received from the adjacent property owner asking the Department to allow them to purchase a small parcel of drainage area and incorporate drainage for a new career center into the existing outfall ditch. The request was circulated to the Engineering Sections to determine if said parcel could be declared surplus. After review, it was determined that the Grantee had successfully addressed the drainage concerns and that the subject parcel was now surplus to Department needs. This action is favorable because the Department is relieved from maintaining this drainage. Therefore, a Quitclaim Deed for approximately 0.08 of an acre of land to Horry County Technology and Career Center was executed on September 7, 2004 in consideration of \$2,100.00.

18. File 29.2001 / Road S-218 Relocation / Lancaster County / Fifth Congressional District

At the completion of the above project, the subject parcel was declared surplus by the Engineering sections and the DEA of District 6. In the Department's efforts to liquidate the surplus inventory, the subject parcel was placed on the market through the use of the Department's Real Estate consultants. An offer was presented to the Department at the appraised value, and has been determined to be acceptable. Therefore, a Quitclaim Deed for approximately 0.19 of an acre of land to Ernie H. McAllister was executed on August 9, 2004 in consideration of \$13,650.00.

During construction of improvements on Route I-385 Frontage Road (Road S-1099), under File 23.227A in Greenville County, in the City of Simpsonville, the Department acquired right of way for Route I-385 Frontage Road (Road S-1099), from James M. Latimer by Right of Way Easement dated June 11, 1956, and from Mrs. Ida Mae and James M. Latimer by Right of Way Easement dated June 11, 1956, under File 23.895; from Argonaut Holdings, Inc., c/o Worldwide Real Estate by Title to Real Estate dated September 13, 1999, under File 23.227A.

Simpsonville Chevrolet constructed a dealership sign and five huge light poles within the SCDOT right of way for Route I-385 Frontage Road. The Department demanded that these encroachments be removed. The Grantee asked the Department to sell the right of way to meet set back requirements and to avoid the expense of moving the items. After review, it was determined that the parcel was surplus to Department needs. Therefore, a Quitclaim Deed for approximately 0.05 of an acre of land to Argonaut Holdings, LLC was executed on October 6, 2004, in consideration of \$10,845.00.

6. File 32.118B / US Route 1 / Lexington County / Second Congressional District

During construction of improvements on US Route 1, under File 32.118B in Lexington County, in the Town of Batesburg-Leesville, the Department acquired right of way for Road S-463, by Dedication from the Town of Batesburg dated May 14, 1956.

A request was received from the Town of Batesburg-Leesville asking the Department to relinquish a portion of right of way, which was previously used as an access road adjacent to US Route 1. The bridge over the abandoned railroad at this location was recently removed and US Route 1 was lowered which made the access road unnecessary. The request was circulated to the Engineering sections to determine if said parcel could be declared surplus. After review, it was determined that the parcel was surplus to Department needs. Therefore, a Gratis Quitclaim Deed for approximately 0.14 of an acre of land to the Town of Batesburg-Leesville was executed on October 6, 2004.

7. File 23.243A / Road S-136 / Greenville County / Fourth Congressional District

During construction of improvements on Road S-136 (North Buncombe Road), under File 23.243A in Greenville County, in the City of Greer, the Department acquired right of way for Road S-136 (North Buncombe Road), by Title to Real Estate from Mary B. Covin N/K/A Mary B. Harvell dated May 5, 1998.

In the Department's efforts to liquidate its surplus inventory, the subject parcel was given to a Real Estate consultant. Due to the parcel's access issues, the parcel was offered to the two adjacent property owners. The Grantee offered the highest acceptable price. Therefore, a Quitclaim Deed for approximately 0.2 of an acre of land to Eugene and Louise D. Barbare was executed on October 7, 2004, in consideration of \$24,000.00.

8. File 7.597/27.518 / SC Route 170 / Beaufort / Jasper County / Sixth Congressional District

During construction of highway improvements in Jasper County, near the City of Beaufort, the Department acquired right of way for SC Route 170 from Dorothy R. Cooler, Grace E. SC Route 462 was realigned with SC Route 170 creating a piece of possible surplus land. At the request of the adjacent owner, Malphrus Construction Company, Inc., a request was circulated to the Engineering sections to determine if said parcel could be declared surplus. After review, it was determined that the parcel was surplus to Department needs. Therefore, a Quitclaim deed for approximately 1.6 acres of land to Malphrus Construction Company, Inc. was executed on October 7, 2004, in consideration of \$50,000.00.

The request was circulated to the Engineering sections to determine if said parcel could be declared surplus. After review, it was determined that the parcel was surplus to Department needs. Therefore, a Gratis Quitclaim deed for approximately 1.7 acres of land to J.C. Hydrick, Jr., Russell Hydrick, Bernard Hydrick, and Margaret H. Still was executed on October 7, 2004.

During Condemnation negotiations to acquire the new right of way needed for the above referenced project, the Department agreed to convey a portion of the old abandoned Road S-72 roadbed, not needed to support the relocated road, to the Grantee at project completion. Therefore, a Gratis Quitclaim Deed for approximately 0.81 of an acre of land to Roxanna Roe Pratt, Bruce G. Pratt, Jr., Sarah Katherine Pratt, and Thomas N. Pratt was executed on October 20, 2004.

Therefore, a Quitclaim Deed for approximately 0.24 of an acre of land to C. W. Haynes & Company, Inc., was executed on October 20, 2004, in consideration of \$1,000.00.

12. File 32.967 / SC Route 35 / Lexington County / Second Congressional District

### **Professional Services Recommendations**

**October 14, 2004**

The following sheets include recommendations for the Department to utilize professional consulting firms to provide various services, which may include design, right of way acquisitions, construction engineering and inspection, or other associated services. The Department requests approval from the Commission to advertise, select and negotiate for these necessary services.

**REQUEST FOR CONSULTANTS TO PERFORM SCDOT's MUNICIPAL  
SEPARATE STORM SEWER SYSTEM (MS4) PERMITTING  
IMPLEMENTATION AND DATA COLLECTION**

The Department requests Commission approval to advertise, select and negotiate with consulting firms to assist SCDOT in its efforts to obtain an MS4 permit as mandated by the Environmental Protection Agency and SCDHEC and implement the first permit cycle requirements. The Department's cost versus the consultant's cost will be evaluated for the scope of services. The scope of services will be determined by the permit requirements. One known requirement is an inventory of SCDOT outfalls. This data will be collected based on a predetermined cycle through an agreement with SCDHEC.

The estimated contract agreement duration will be for 6 years and will cover the first permit cycle and the second permit cycle renewal process.

**REQUEST FOR PROFESSIONAL ENGINEERING SERVICES FOR DESIGN-BUILD SUPPORT ON STATEWIDE BRIDGE REPLACEMENT PROJECTS**

The Department requests Commission approval to advertise and select a consulting firm for the purpose of providing engineering review services to support the design-build projects listed below. Based on current and projected workload, the Department does not have sufficient staff to proceed with these projects. Project 1 will be state funded. Project 2 will be funded by using Federal Bridge Replacement Funds.

- 1] Statewide Maintenance Design-Build Bridge Replacement Project
- 2] Statewide Federal Design-Build Bridge Replacement Project

**Emergency Procurement of a Contractor  
Ladson Road (SC File 10.343A & 18.623)**

This project involves the widening of approximately 5 miles of a high volume commercial roadway. A large number of residences and commercial businesses have been and are continuing to be adversely impacted by the construction. Traffic control devices are in place throughout the majority of the project and at many high volume intersections. These conditions are an ongoing safety concern and also cause significant inconvenience for residences and business owner.

Procurement of a replacement contractor through the standard bidding procedures would cause an unacceptable delay and increase frustration among the already frustrated public that live and conduct business in the area. In order to minimize safety concerns and disruption to the public and to prevent further delays to the completion of the project, we have procured a replacement contractor utilizing a negotiated contract method as allowed under our emergency provisions SC Code Ann. Section 57-5-1620, 23 USC 112(b) and 23 CFR 635.204(b).

## **Professional Services Recommendations**

**November 18, 2004**

The following sheets include recommendations for the Department to utilize professional consulting firms to provide various services, which may include design, right of way acquisitions, construction engineering and inspection, or other associated services. The Department requests approval from the Commission to advertise, select and negotiate for these necessary services.

The South Carolina Department of Transportation (SCDOT) intends to engage engineering firms to furnish geotechnical engineering services on an "On Call" basis to conduct subsurface explorations, laboratory testing of soil and rock samples, perform data analysis, and provide reports of the results of the investigations, testing, and analysis. The particular services which will be required of the engineering firm will be dependent upon the ability of the SCDOT to handle the workload in this area with Department personnel and equipment and may vary considerably from project to project. Services will be conducted on or for proposed and active construction and maintenance projects within South Carolina. The contract will be for a period not to exceed three (3) years. The funding source will be both State and Federal.

## **Removal of Roads From State Highway Secondary System**

**October 14, 2004**

The Department recommends Commission approval for the removal of certain sections of secondary roads from the State Highway Secondary System. These sections of roads may be removed for one of the following reasons:

2. Deletions and Removal of Roads from State Secondary System - Roads may be deleted and removed from secondary system by exchanging for equal or less mileage or roads, which have a higher traffic importance. Ownership reverts to local government having jurisdiction (city or county). Approval of deletion or removal by local government is not required.
3. Abandonment of Right-of-way - Right-of-way may be abandoned if it is determined that the right-of-way is not required for right-of-way proposes or if the right-of-way is not needed for Department purposes.

## **Participation Requirements**

### **STATE MATCH PROGRAM 2005**

#### **PROGRAM GOAL**

The goal of the State Match Program (SMP) is to preserve the integrity of the present highway system through resurfacing while making improvements that will improve safety for the three common modes of transportation used on state roadways and rights-of-way: Vehicles, Bicycles, and Pedestrians. SMP is a match program that promotes a cooperative effort between SCDOT and County Transportation Committees or local governments to select and fund highway improvements.

#### **GUIDELINES**

1. The SCDOT will allocate a maximum of \$15 million in state funds to the program for the fiscal year 2004/2005 in order to match "C" Fund contributions or other local funds.
2. The minimum initial allocation by SCDOT for each CTC will be based on the "C" Fund distribution formula. Funds not claimed in the initial allocation will be redistributed to those counties that are interested.
3. SCDOT will match "C" Funds committed to the match program which are in excess of the 25% minimum required by law to be spent on the state highway system.
4. A minimum of one dollar in "C" Funds or local funds must be committed to the match program for each dollar contributed by SCDOT.
5. Projects in this program must be on the state highway system and must be developed to state standards.
6. Projects eligible for this program include resurfacing (which will include a 2' paved shoulder on each side and a minimum 2' earth shoulder), widening to accommodate bicycles, intersection improvements, sidewalks, turning lanes, improvements in roadway geometry, and other significant measures that will improve safety.
7. The selection of projects will be a cooperative effort between the CTC (or local government) and SCDOT.
8. Projects will require SCDOT Commission approval.
9. The SCDOT will administer and manage all projects including design, bidding, contract award, and construction field management. Exceptions may be made upon request, provided the participant demonstrates the ability to accomplish the work.
