Subject: Hermine Fri. statement

Tropical Storm Hermine is forecast to cross our state between 2pm-10pm today. This afternoon, Midlands and Lowcountry residents should lookout for road closures due to debris or flash flooding and possibly bridge closures due to high winds. A lot of utility crews, DOT personnel, and law enforcement officers will be out there restoring services and keeping us safe. If you see them on the roads, please slow down, and pay extra attention to cones, barriers, and caution signs. For road closure information, visit www.scdot.org. For emergency safety information, visit www.scemd.org. #Hermine #TeamSouthCarolina
