Dear Gov. Haley,

First of all I want to congratulate you on your win last night. Although I am a "Democrat" I could not vote for anyone but you with your great track record for bringing jobs into SC. After listening to your speech last night on how you wanted to make sure that every South Carolinian who felt trapped, stuck or has been dismissed had a job. So I thought why not write Gov. Haley and here I am. I am a 53 yo black female with a Master's in Human Services and no job. I lost my job on October 14, 2014 as a Teacher's Assistant. Although the income was not that great it did allow me to keep a roof over our heads and food on the table. I have been trying for 4 years since I graduated graduate school to acquire employment in the Human Service field with no success. I am definitely not looking for a hand out I just want to be pushed in the right direction. The competition is so great between people my age and the younger crowd who has just graduated college. I know this is a long shot but I have tried everything else. I guess I am expecting a miracle. Thank you so much and God Bless.
