Stan also had me load a plastic 1.5 gal can of gas into the back of my truck before he drove off with it. The color of the fuel tank I loaded into the truck was brown.

I accused him of proposing arson as he had no machinery with him that would use gas.

He forgot his ski-mask after the arson crime. Ann Pressley (DOB 1-26-60) ^{was} Catherine's Secretary then. Ann entered the Soda Shop a few days after Stan Borrowed my truck and asked me for my keys to the truck. Catherine had sent her to search for the Skimask. I found it later on at my house when cleaning out the truck. I did not know where it came from and threw it in my trash.

Ann found out about it and asked if she could look in my trash can at home for the ski-mask. I think Catherine ordered her to search my truck.

I don't know if she found it, but Stan's hair would have been in the mask that would have convicted him of arson by D.N.A. testing of his hair.

I told Ann all this yesterday, and she does not remember. Ann's phone # is (864) 534-0871.

I think you should put a wire-tap on Ann's phone too.

Sincerely American, Thomas M. Carr "Capt. Tom"

Star Egan is Tula's son. Tula is Tilcia Christophillis sister. So you see, its a whole family of organized-crime using memory-loss pills and swindling people.

Ann says she remembers none of this I told her they may have given her some of the pills also.

Catherine has fired Ann because she had a bladder infection, and missed too much work.

Now Ann has sprained her Ankle real bad and says she has had surgery on it 3 times.

I am not sure if she is still one of the organized criminals. I told her yesterday I am on to it, and we must stop the pills before they make it to the White House.

I saw President Obama on TV at a press conference. He signed something and forgot he did!

Judy McBrearty is a French and notary public. Judy married me and wife in Catherine's Back yard years ago.

Judy denied notarizing the property swindle paper at Anna Kate's wedding reception that I signed.

She is either one of the criminals and is Lying, or they have given her some of the pills too. I think you should also wire-tap Judy's phone. Her # is:
(864) 420-6636.

So what happened next is Stan Egan of Egan's Auto World in Greer S.C., borrowed my 1999 Chevy Tahoe that he sold me.

I saw on T.V. news a security film my truck being used by the masked perp. that entered A court records dept. in N.C. with a black-ski-mask, pistol, and can of gas. The armed man pulled papers out of a file cabinet poured gas on them and burned the records. The perp tried to frame me as the villain. This happened the same day Stan borrowed my truck.

Stan photographed me changing the license tag on my truck with his cell phone. He also tried to get me to swallow the memory-loss pills as he got my truck.

We were behind the Northgate Soda Shop when this happened. Right when he handed me the pills, Noel Jones (hairstylist next door) came out back and said, "Stan, what are you doing?" When he turned his back to see Noel, I threw the pills down in the parking lot. I never swallowed them. I lied to Stan and told him I took the pills.

The Honorable N. K. Haley
Governor of South Carolina,

Dear Governor Haley,

I have been so busy that I have not yet sent or delivered by hand my first report of the new memory-loss dosing drug.

I also wanted to report about the property swindle in N.C.

Anna Leah Christophillis gave me some pills to take before I signed the paper. She said they were vitamins.

Later when I rambled about it, I confronted Anna Leah's mother (my-sister, Catherine Christophillis). Catherine devised the whole thing. I told her they had left a paper-trail with the signed document.

I said, "What are you going to do now? Call in an air-strike on the Court House Records Dept?"
