Subject: Squatter's Right

Dear Governor Haley

I am coming to you seeking help in solving my housing issue. My house needs repair ASAP. As a constituent I approached my legislators cause I live in their district. After hearing my story. Congressman Tom Rice said: Have the house put in your name first and then, we will help you with the federal agencies.

USDA has already send me an application cause I am eligible for assistance. I did not submit it cause I am not in possession of the DEED yet.

I turned to Senator Lindsey Graham to help me in Squatter's Right thinking it is a federal issue. After hearing my story he said this is not a federal issue, this is a South Carolina issue. He suggests to talk to Governor Nikki Haley asking her to pass the "Squatter's Right Law" that's all what it takes.

Now dear governor Haley I am putting my concern into your hands trusting that you are not going to deceive me, so I will be living in a safe house without worry of disasters ... Then I will register the house in the Department of Archives and History, that will end my struggle and I will live happily ever after like a "Fairy Tale" story.

Looking forward to hearing from you.

Respectfully submitted

May Hayek-Saleeby
