---

hi I have a problem with the colleton county dss office I was in an abusive relationship had enough lashed out at him and my kids were taken from me my problem is that I am doing everything I possibly can to get them back and they do not call me when I call them they couldn't even let me know that court had been rescheduled in the past 2 months I have called them 22 times they called me 4 times and there was a mutual of 4 calls my son is seriously regressing between being sent to the psch ward for the majority of February just because I did what I had to do I'm not nor have I ever been an unfit parent and they can not prove otherwise my daughter who is not even a yr old is now missing out on important bonding time especially with her brother this needs to stop before it gets worse.
