This event was originally supposed to take place 2-3 months ago - it's been pushed back over and over again. So this was originally scheduled before we had the meeting with Rhett, NFP, etc.

The original thought was that we could introduce the Duke folks to the SIB project through a meeting after the telepsychiatry event, but that's not really necessary now. It's probably worth spending 10 minutes informally with whoever they send, just to give an update, but it's not worth Duke sending anyone who wasn't otherwise going to be here. That work?

Did we want to go ahead and try to talk with endowment folks about this or should we wait until we are ready for primetime. I don't want to force, just for convenience sake.

Tony,

I learned on Thursday that you'd like to have a meeting it discuss SIBs with Endowment staff on Tuesday following the telepsych press conference.

There appears to be confusion on our staff: is this meeting to discuss the early childhood SIBs that we have been discussing? Or, are you interested in discussing a SIB for telepsych or some other healthcare intervention.

Your response will help to determine who from our staff will attend.

Thanks for any clarification you can provide.

Regards,

Rhett
