Subject: Body cams not just for cops anymore / 5 cities, 5 smart ideas / Infrastructure fixes boost local economies

WELCOME TO SMART CITIES NOW

Updates on smart city progress around the globe

NEWS & TRENDS

Body cams -- not just for cops anymore: Body camera usage is spreading quickly, and it's not just due to police department adoption. Some cities are considering them for everything from parking officers to building inspectors. Learn more about that -- including why some say it's a terrible idea. [MORE >>](#)

5 cities, 5 smart ideas: Lexington uses 'digital survey vehicles' to find potholes and cracks... Mobile becomes a lifeline in Luanda's water-deprived slums... City of Stow putting its checkbook online... Toronto City Hall tries digital signage to improve customer service... Altamonte Springs will reclaim highway water run-off for reuse. Click for details -- and to tell us about your city's smart ideas. [MORE >>](#)

Making digitization simpler: To help smart cities, public safety, transportation and other sectors capitalize on the estimated 50 billion devices and objects that will be connected to the Internet by 2020, Cisco just unveiled a new Internet of Things system. Find out how your city can benefit. [MORE >>](#)

MARKETS & RESEARCH

How infrastructure investments deliver economic gains: When planning infrastructure investments, cities typically concentrate on the people who directly benefit. But a new Siemens study finds everyone in the city benefits -- even if they never ride the transit system or visit the energy-efficient building. Read about projects in Salt Lake City and Louisville that delivered sizable city-wide economic gains. [MORE >>](#)

PILOTS & PROJECTS

A grand example of energy efficiency: New York City's Grand Central Station is one of the busiest train terminals in the U.S. -- and sure to be even busier with the approaching July 4 holiday. Visitors won't notice, but the massive terminal has undergone energy efficiency upgrades expected to save a whopping \$3.3 million and cut carbon emissions by 10,000 tons annually. See how they did it. [MORE >>](#)

Innovation at city hall? Hear about it from insiders

Don't miss your chance to hear how cities are creating a culture of innovation that extends from city hall out into the community at large. Among the many exciting speakers you'll hear at Smart Cities Week in Washington, D.C. Sept. 15-17 are Nigel Jacob, Co-Founder of the City of Boston's Office of Urban Mechanics, and Deborah Lam, Chief Innovation Officer for the City of Pittsburgh. [See who else you'll hear in D.C. >>](#)
