---

Senator Kevin Bryant, I pray that you do not let this budget cut that the Ways and Means Committee is trying to adopt happen to our families who have disabled loved ones and our community. This will make a devastating impact on the DDSN services that are critical to many families. I have a son with brain injury (TBI) and with the HASCI waiver I am able to keep him home with his family. I could not do it alone. My son takes 24 hour care. I pray you vote against this cut and help those who can not speak for themselves. Please see attachment Thank to this critical matter Liz Willis
