David can you and Helen respond back on what part of any of this is not true . Certainly if it was not true someone could be sued correct ? Helen I can tell you your policies of decreasing members publications and replacing with your own and distributing your Cvb magazines locally versus small local media members struggling to survive and perhaps other single moms effected is going to end . This is clearly unfair trade , business and competitive practices and if many magazines in Charleston have this similar story the damages could be substantial .

Helen we also got an anonymous disturbing call and want to verify its validity. They said your husband is a building contractor and has be awarded bids over Others because of your position as ex dir of the Cvb . Again we have no proof of this , but found it interesting someone would go to the trouble to tell us this from a blocked number . These are the sort of things that dept of Justice and FBI launch investigations over whether true or rumor to fully confirm . I have offered a 20k cash reward for anyone who furnishes info leading to the conviction of anyone involved with any chambers breaking any laws . We have also been given anonymous info on Hilton head and expect this to expand . Helen You are currently violating IRS 501-c6 non profit tax codes already and Irs at some point will be forced to act . You are also in violation of sc Foia tax laws and why we filed a lawsuit . When this case us won we will be seeking lots of information . I hope I am clear to both you and David your attorney on my position and many others in this state ? This email will be sent to every media in Charleston and other cities . This fight for small business and protection of free enterprise rights will not end and for me to my last breath . I have had enough of big government and big abusive Chambers /CVBs smiling and stabbing us all who work hard and pay taxes in the back.  
Thanks

Yes with enough of these stories we are heading for a huge class action lawsuit with damage claims by many . As the press coverage increases ,more people will come forward to tell their story . This story by a single mom will be our poster story and hard to beat to prove our case . I can tell you a jury would be on the side of a poor single mom abused by all this . Multiply this by thousands of other poor struggling small business owners and this abuse by all these chambers / CVBs will end and they will be forced to go back to their original intent . Many of these 400k , 1m , 4.7 million salaries and excessive expenses and abuse to tax payers and members will end as well . These executive directors will have to take pay cuts or go find a real job where they have to actually perform and work for a living . I have never imagined anything could get this bad and go on this long without being noticed . I am thankful that I was chosen to be the one to see this and given the strength and motivation to expose this abuse , scam and corruptions it to the world . Don't judge a book by its cover is so true .

This type unfair trade is exactly what is happening nationwide to small business owners . I see massive damage lawsuits , class action.suits caused by all this wide spread unfair trade , business and competitive practices . The IRS is also to Blame for allowing this to continue when they fully know this is in violation to their own 501-c 6!tax codes governing non profits . This will end not ending Is not an option .. Their are thousands of stories just like this one .thanks

Hi Skip,

An attorney friend of mine brought me the Sun News article that tells of the MBACC issue. I applaud and support your efforts 110%.

I have been in the In Room Guest Directory business for more than 15 years. For 10 of those years the majority of my income was earned right here in Myrtle Beach. That was, until the MBACC went into the Guest Directory business. FYI.... I know firsthand of the "conspiracy" that went down here all those years ago. The company I used to work for had contracts with more than 30 of the top resorts here, including the Brittain properties and I personally had more than 80 advertising clients.

I am living proof of the unfair business practice of the chamber. I was a financial casualty of Brad Deans/David Brittain's effort to rule the advertising world here in MB. I initiated several meetings with Brad Dean, each time leaving his office feeling like he didn't care one little bit that I was facing financial devastation. I was right, he didn't care. Why should he care about me? He was earning a fortune and I would soon be living below the poverty level. The straw that "broke the camel's back" was the passing of the 1% tax. I had to fold. I could no longer compete with the MBACC.

I am still in the Guest Directory business, but no longer work in Myrtle Beach. I cannot earn a living here, so I took a position with a different company and now travel to 10 other markets a year.

I am 53 years old and have lived in North Myrtle Beach (in the same house) for the past 30 years. My only child recently graduated from USC in Columbia. I have been a single parent since she was 3 years old. I am a credible lady with a real story.

Unfortunately, I wouldn't be able to financially contribute to your effort, but I felt compelled to connect with you anyway. Please let me know if I can be of any help. I welcome the opportunity to talk with you... should you want to connect.

Thanks for taking the time to read my story. Maybe my words will serve as further inspiration in exposing Brad Dean and his cast of overpaid characters. You have my support!

Thank you,

Anita Minervino
