Subject: Fw: SC Safe Home

Greeting Ms Haley

Can you please provide me assistance in trying to leverage the SC Safe Home benefit that we tax payers have available to us?

The website has forever had the notification up stating that it was no longer taking new applications - but this note has been posted far too long and other worthy SC citizens must have the opportunity to partake in this program.

Can you please help?

Thank you

Eric Riseman

Good evening

I have been tracking your website for quite some time and it seems as though the state of SC will never be opening up this benefit to new applications. For far too long - the site claims that it is not taking any new applications. I can understand a month or two to work through a back log of applications but this is silly and unfair to those that pay taxes in SC.

As a taxpayer, how am I too take advantage of this benefit if it is never accepting new applications? Do I need to petition the governor?

Please help me understand when and how I can participate in the Safe Home program

Thank you

Eric Riseman
