

It would be nice to have a women president

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street,  
Columbia, South Carolina 29201  
Date 3/8/15

Dear Madam Governor,

Most Americans know that this country is a broken vessel and is desperate for a competent leader to fix her problems. Since the time of America's first conception, America has sacrificed too many of its good men and women for freedom and rights. The constant wars and financial strains have taken their toll on the people of this country. There is plenty of talk with no true action taken. America is in need of a true visionary to restore the moral and spiritual compass of her people.

I believe that such a person exists. I trust that you are someone who could return the moral fiber of this once great nation. The people of South Carolina trust and respect you as a true leader, and they would love to see you run as a presidential candidate. You are such a dynamic individual, your truth and love could heal this nation, and bring America back from the brink.

It is unconscionable that Mrs. Clinton should get thirty-three million dollars from foreign donations to run for office. The American people should decide who becomes the next president, not bought off foreign interests!

This nation and other countries are desperately looking for a true leader to guide the morality of this troubled world. Please consider running for the office of the presidency, as we truly need a person of your great character.

Sincerely yours,

Dorothea Heiland
