Hey,

She's looking for whatever details you've got on the frame you did for the WorkReady Communities certificate last week. You mind sending me a PDF of the invoice, or whatever else I should give her? Thanks.

I'll take the 2nd certificate and get it framed myself. Know the budget dude wouldn't go for two. Lesson learned though--if the County ED is not the Champion for the County, then we'll always need to have 2 signed so that local developers can have the certificate as an economic development tool for prospects.

I'll need the name of the frame shop and a copy of the invoice so that we know what frame, matting and size were used.

That's all for now.....

Hey,

I wanted to get this to you so that if I'm caught or captured, the initiative can continue. The SCWRC logo is the higher-resolution one you gave me to give to SCDOT. I also realigned the centerline between the state seal and the SCWRC logo with the text that's underneath it. That's how I originally had it before we made the last-second changes earlier this week as it headed out the door to the printer.
