I sent a picture of nets going across the lagoon at hunting island. I put this on a hunting island page but I guess I hurt their feelings. Post deleted and I cannot see page anymore. O well. Anyway these folks that is doing this is keeping everything to small or to big and leaving trash on bank. I kayak out there every weekend and pick up trash from the water. So the duties of rangers is to protect property and resources and people. So why don't hunting island ranger protect the resources?

So hunting island is telling everyone that south beach and lagoon is closed due

to flooding or water on road and parking areas. Well pictures was taken today looks pretty dry to me. Why do they have to lie to the public. It is like last month guys with gill nets going across the lagoon. Spoke to ranger was told there is nothing they can do. Or is it because they don't want to be bothered with it. Have a good one. Maybe next weekend the roads and parking will be dry to get to lagoon
