Subject: Indian Land family holds record for high-speed golf cart | The Herald

Governor Haley,

On your next visit to Indian Land area (Fort Mill, or Sun City Carolina Lakes) Robby and/ Carson Steen would love to show you a demonstration of the Worlds Fastest Golf Cart, per Guinness Book of World Records. It really shows what innovation, education, and determination can do. As you say, "No is not an option". In their garage, they dreamed it, and the built it. And, want to enhance it and build one that goes even faster. They export their electric motors to several countries, as well as a large US business.
