This weekend at Devils Fork!

Tina Groover Stokes Funny story about those things: When we went to Hawaii, my daughter and I tried one because everyone made it look so easy. Not once did we ever stand up on it and we spent more time in the water!! However, we did have fun and lots of laughs making a fool of ourselves!

John Winchester It is actually really easy, you just need the proper board, and Hawaii is really not the place to learn, kind of like you wouldn't want to learn how to paddle a river on a class IV...

Rose Clawson I tried one at the canoe and kayak festival in charleston, and saved up to buy one-I don't have good balance but am able to enjoy it! I want to train my dog to go with me!
