Chaney,

Here are the questions I sent to the other address. Let me know that you got these.

Thanks,

Chaney,

I had a few questions about dam safety spending in South Carolina. I don't need this today. You can respond tomorrow, if that works better.

- A) What is Gov. Haley's position on the need to bolster funding for DHEC's dam safety program?
- B) Why was more money not included in the budget prior to last year to bolster the program?
- C) Sen. Sheheen has questioned whether Gov. Haley and former Gov. Mark Sanford put enough emphasis on funding for the dam safety program. Can you respond to this?
- D) Why does the governor think dams failed during last fall's flood? Is it only because of the heavy rain? Or could a lack of state inspections and other regulation be a contributing factor?
- E) Does the governor believe that extra money in the budget for next year will help improve the dam safety program?

Thanks,
