Skip,

Look at this map, and simply put in the Hilton Head zip code:

[<http://s3.amazonaws.com/nw-infographics/beachmap/index.html#33.7/-78.9>](http://s3.amazonaws.com/nw-infographics/beachmap/index.html#33.7/-78.9)

Moving forward, with technology, tourists will be using sites like this as they plan.

We have to therefor take care of our beaches.

It is imperative.

A.J.,

We gave everyone in city government days to respond. We were more than fair. Not one of them replied. They never do.

This group of elected officials should be accountable to all of us. Our beach is our number 1 asset. The entire industry from Pawleys to Little River generates \$3 Billion.

Myrtle Beach deserves answers here and those answers must come from city government.

I expect the city to find a way to "blame us" rather than deal with the public honestly about this. Rather than fear mongering, we have taken a very staid approach, simply reporting the numbers.

Just today, April O'Leary reached out to us wanting to see how she could join our awareness program with other concerned environmentalists.

April does the RiverSpeak Newsletter for Waccamaw RiverKeeper.

She would be a great resource to reach out to. Let me know if you want her number.

I also reached out to Billy Huggins and Sara Miles as I am sure Brad Dean or City Council will only speak through one of them. This is no longer a "local" story.

Thanks,
