Hi David,

It does not appear that any residents would be impacted and there have been no evacuations.

Thanks, David

Subject: RE: Saluda Dam Update

Is there a threat of harm to any residents? Has anyone been evacuated?

Thank you.

Subject: Saluda Dam Update

Hi David,

A area in Saluda had 9 inches of rain yesterday and a dam located in that area is having serious issues. It is a Class 2 (significant hazard) dam. EMD is involved and has closed the road below the dam (HWY 378). Our Dams program staff and contractor are onsite to work with the dam owner on needed actions.

Please let me know if you have any questions.

Thanks, David
