To The Superior Ct. Probate Court and others

I received your letter dated 11-10-14 today and I totally disagree with the contents. Here is my opinion and facts. First Erin made a sworn affidavit under the condition of perjury and it was not verified by anyone of legal capacity. Secondly during the March 2013 hearing, Erin was called back to chambers & I was not allowed to be present & dispute any state matters she made. Where is the fairness there. I did have a totally ineffective attorney, Corey Fleming who was recommended by Ward of Mouth & he kept his mouth closed in the Aug hearings. As I understand, you Judge Sakin called the attorneys back to chambers & said for them to work out a deal so that there would be no family harm done. My jerk of an attorney slipped a blank signature copy of your stamped signature in on me & even he did not sign it. His Paralegal or associate signed for him. I did trust him at the time & was handed a slip of paper (signature sheet) & I signed it. This cost my wife & I 43,500 dollars which was a wrong procedure, and was not dated or stamped so I wrote the S.C. Bar on it. The Par wrote back and

the shrink's statement that my wife
had dementia & as I understand by
law if a person is in such a mental
state that they can not sign any legal
documents so that P.D.A. is null & void
I revoked my P.O.A. in Sam Svalina's
office 4-1-13 & he told his office to send
a copy to Erin's attorney D.C. Gilley
So Erin did not need to hire an attorney
Why not then she had no authority
to take her mother to Florida in
violation of your Court Order. I
think you are just using the attorney
bit to shut me up because I don't
have the money to hire another
inexpensive attorney. Besides who could I trust
after my last experience? Is there any fairness
or honesty in D.C.? Not that I can tell. I
will send copies of this to other people &
somewhere someone may listen & get all
this corrected before my wife & I die.

said I had to write the Commission on Attorney Misconduct which I did. Another attorney there or Wm Campbell who is also an attorney had this investigated as a fee dispute by a Mr. Michael Howell on Hilton Head S.C. I wrote back to Wm Campbell & said it was more than a fee dispute but he is not a honest person. Anyway with a later phone conversation with him, he said to send him information & he would call me back. He never did & did not even return my call. To me this makes him a liar & I think he just wanted to see my info so he could plot his defense. Also I talked to Alan Wilson the A.G. & he was very strong on elder abuse by our two adult age kids until he talked to the Port Royal Police & changed his mind. I never got to argue my case with him - why not? Now you can see why I don't have any faith in our legal system as far as Judge Gabor's Court order. I did not get a chance to contact Erin taking her mother to Florida. Now don't tell me about Erin's Power of Attorney because I understand it.
