---

We will be putting something together to send over in the am.

**Subject:** Thoughts

I'm covered up, but I'm thinking about the budget.

If you would send something over tomorrow morning, I can read through it – good descriptions on all of the programs that the Museum will offer with the EIA and general fund provisions they received this year.

Also, Willie and I have talked in the past about school groups coming to the museum – do you have citations for the relevant statutes, standards, or regulations that dictate these field trips - like the one to the statehouse - and any statutes that dictate that the Museum cannot charge these kids when they arrive?

If I need to be thinking of other things, let me know

Thanks,

Josh
