

Dear Governor  Haley

My name is Jacob. I go to Gull Lake High School in Michigan. We are writing letters to the governors of all 50 states. We want to know more about you and your state. I like to play with transformers and listen to music. What do you like to do in your free time? Do you play any sports? I like to walk outside. What is a movie you like to watch? Do you like being a governor? What is your state bird and tree? Thank you and please write back.

From,  Jacob

# The Governor Project

Hello my name is Tasha Harrison and I am a special education teacher at Gull Lake High School in Richland, Michigan. My students are in the alternative learning curriculum and are learning life skills that will help them to become more independent.

This year my students are writing letters to the governors of all 50 states. Our hope is to receive a letter, brochure or some other mailable item from your state. Each student was assigned a state and a governor to write to. We have a special map in our classroom, and will be marking which states we hear back from. Enclosed is a self-addressed envelope with our address.

Thank you so much for your time. Have a great day!

Tasha Harrison

Gull Lake High School
