---

Hi Richard:

I have notified James Verrier's Assistant, Julie Watts of the delay in a telephone call. You may call Julie Watts directly to reschedule a call at a later date. Her number is: 248-754-0334

Please let us know when Senator Alexander and Governor Haley would like a tour of BorgWarner. We will be having an all employee luncheon on Monday, March 24 and we hold Quarterly All Employee Meetings in Seneca..another opportunity to meet the employees and tour the facility.

See you soon,

*Dee Klawitter  
Executive Assistant to Chris Walsh  
BorgWarner

Dee -

I just got off the phone with SC Senator Alexander. A issue has developed for the Governor for that Friday and she will be unable to place the call as previously discussed.

The Governor pledged to Sen. Alexander to make a trip very soon to tour Borg and apologized. Or even a call to Mr. Verrier at a later date to express gratitude for the growth in the Seneca operations.

Hi Richard:

Just wondering if we have a specific time for the call between Governor Haley and James Verrier yet?

Dee –

By copy of this email, I am leaning on the SC Commerce team and Katherine (Governor's office) to select the best time within the given window indicated below. They should respond soon with an answer.

Hi Richard:

James Verrier will be available between 9:00 am – 10:00 am (EST) on Friday, March 21. We would like to include Stefan Demmerle, President & General Manager TTS in the room along with you and Mr Tony Allen.

We can use the Keowee Conference Room for this call. The phone number to that speaker phone is: 864-985-0568 Extension: 297

If you can pinpoint a specific time between 9:00 am – 10:00 am, I will include it on Mr Verrier's Itinerary to expect this call.

Regards,

*Dee Klawitter

Dee –

Any idea yet regarding the possibility of the Governor to have a phone call the morning of or afternoon of Friday, March 21<sup>st</sup> with the CEO?

The scenario that SC Commerce likes is to have a project manager in the room when the Governor calls. In this case, Tony Allen. I would also be in the room. So we would need a room with a conference call enabled phone that the Governor could call at a set time to talk with your CEO.
