Mr. Graham-

Just so the record is clear in this matter: I am the third attorney court appointed to represent you on these charges. When I was appointed to you, after unalterable conflicts arose with each of your two previous counsel, you were very clearly cautioned by Judge Thomas Cooper that I was to be the last such attorney to be appointed to your case. As I have explained to you on innumerable occasions in the past you can hire private counsel to represent you in these matters or if you can convince the court that you possess the ability to represent yourself then you can proceed in that fashion. In either regard I will not withdraw as your counsel and we will proceed to trial on August 3rd.
