Volume 3 Issue 10

## Service Awards Recognition Lunch!

DOR's Service Awards Recognition Lunch was held at Grecian Gardens on September 29th to honor individuals who have completed 10, 20 or 30 years of service as a South Carolina state employee. Director Etter and Senior Administrators were on hand to personally thank each employee for his or her years of service and presented each employee with a certificate and applicable service pin.

The following employees were recognized:

Tonya Dreher – 10 years  
 James Epting – 10 years  
 Karen Harris – 10 years  
 Walter Scull – 10 years  
 Marie Slice – 10 years  
 Robert Mayer – 20 years  
 Marlene Cunningham – 30 years  
 Shelby DeFrenn – 30 years  
 Andrea Harris – 30 years  
 Cynthia Hoyt – 30 years  
 Willie Smith – 30 years

*Not pictured: Willie Smith and Cynthia Hoyt*

# DOR Spotlight: Rose Mills and Bernice Rivers

This month, the DOR Post is featuring two ladies who have spent many years working for the state of South Carolina.

Ms. Rose Mills and Ms. Bernice Rivers — both 88 years old — are both ready to come to work at DOR each day as they say they couldn't stand the thought of staying at home.

Ms. Rose, who currently works at MarketPointe as a Revenue Technician, first started at DOR in March 2000 after retiring in 1993 from the Legislative Council of the General Assembly. She worked for 32 years with the Legislative Council and appreciates her current position as she enjoys the work and “cutting up” with her coworkers! Ms. Rose, born 9/23/23, is originally from Jennings, LA, and was raised in New Orleans. She moved with her husband, Robert “Bob” Mills, a well-known artist, to SC in 1943. Bob is from Columbia and was serving in WW2 at the time. Rose says her family and friends are most important to her. Her family consists of her daughter Alta-Ann, daughter-granddaughters (daughters she adopted) Denise and Michelle, and great-grandsons Bobby, Jim and Joe.

Ms. Bernice Rivers first started with the Tax Commission when it was located on the corner of Sumter and Main Streets. She began as a temp and estimates that she has been with DOR for close to 30 years. Ms. Bernice currently works at MarketPointe in the Mail Processing Section. Like Ms. Rose, Ms. Bernice also enjoys her position as she values that she has a good group that works together, helps each other out when needed, and occasionally has dinners together. Ms. Bernice was born 6/6/23 in Winnsboro, SC, raised in Newberry and then moved to Columbia for her husband's job many years ago. Ms. Bernice has three daughters, Gayle, June and Oneta; five grandchildren and “too many great-grandchildren to name.” Her late husband, Omega, had a brother, Alpha, and they were both named from The Bible.

Continue reading for a *getting to know you* Q&A with Ms. Rose and Ms. Bernice...

Rose Mills

Bernice Rivers

*Do you have any hobbies?*

My greatest hobby is my family, my dog Tinky, and giving to and doing for others; family is most important

*What are the first three things you did on your way to work today?*

Got in the car, stopped at the bank, stopped at Hardee's [as she does every morning] to get a biscuit and a drink

*What talent would you like to have?*

To be able to sing and dance, especially on the tables in the French Quarter in New Orleans

*Who would play you in a movie?*

Jessica Tandy; [my daughter] Michelle says *she'll always drive "Miss Paisy"*

*What would your biography be titled?*

"The Worrier" because I am always thinking about my family or "She Did It Her Way"

*What was the last book that you read?*

I read a lot of scripture books but I also like to read The Bible; I wake up every morning to the religious station on the radio

*If you could have a superhero power, what would it be?*

To be able to travel

*If you could travel anywhere in the world, where would you go?*

California

*Do you have any hobbies?*

I really enjoy housekeeping; I like to clean my house and enjoy cooking when I get home from work; I also used to do a lot of crafting and sewing

*If you won the lottery, what's the first thing you would buy?*

Give some to charity and some to my family

# Employee News

---

## New to DOR

Edward McDowell – Senior Software Engineer, SCBOS  
Ashton June – Entry Software Developer, IRM  
Robert Saxon – Entry Software Developer, IRM  
Marshall Tinsley – Honors Attorney, Litigation  
Kathy Brown – Honors Attorney, Litigation  
Melanie Bazel – Assistant Training Coordinator, Training  
James McCutchen – Honors Attorney, Litigation

## Changing Positions

Holly McGinn – Fiscal Analyst, Accounting  
Monica Cochran – Auditor II, Legislative & Local Government Services  
Cathy Weeks – IT Business Analysis Manager, IRM  
Keri Zeman – ABL Coordinator, ABL  
Ian Gilliard – Taxpayer Assistance Officer, Collection Services, Charleston

## Disclosure Awareness

All DOR employees, temporaries and contractors must have completed their **annual** recertification of disclosure training **and** signed a new statement of Confidentiality and Disclosure by October 31st.

# DOR Communicators Toastmasters Club

---

*Come join us!*

Toastmasters is a great resource to help enhance one's communication and leadership skills!

Training is available in the Spring and Fall as an opportunity for learning outside the club and to allow members to meet other Toastmasters members throughout the state. Members receive magazines which are a great reference of international articles to improve skills. Contests are also available for members to further their skills.

If you want to enrich your listening and communication skills, then DOR Communicators Toastmasters Club is for you! Toastmasters meets on the first and third Wednesday of each month at 12:00 pm in room 2E21 of the Main Office.

Contact the following members for more information:

Leann Crim	Milton Kimpson	Benjamin Tripp	Bob Thomas
Marvin Mingo	Kris Streetman	Charo Stevenson	

## Flu Shots!

---

In an effort to ensure the health and wellness of all employees, DOR will be offering flu shots at the Main Office on Tuesday, October 11 in the 4th Floor Training Room from 1 - 3 p.m and at Market Pointe on Thursday, October 13 from 9 - 11 a.m. The cost is \$30 and checks should be made payable to HealthWorks.

Contact [Keislia Allen](#) at the Main Office and [Regina Lake](#) at Market Pointe to schedule an appointment.

# Policy Reminder - Outside Employment

---

It's that time of year when seasonal jobs start to gear up. Please remember that prior to engaging in any outside employment or business activity with compensation (monetary or otherwise), employees, including temporary employees, must first obtain written permission using the DOR Outside Employment form. Please make sure to review the policy prior to submitting the request form. Contact [Angela Stroud](#) in Human Resources with questions.

If you currently have an Outside Employment Request on file with us and you have ended that employment, please let Angela know.

To locate the form: *Dragnet > Human Resources > Miscellaneous Forms > [Outside Employment Form](#)*

## IRS Transcript Delivery System (TDS)

---

The IRS will soon be implementing an October 2011 rollout of improvements to the Transcript Delivery System which is used by DOR employees to request and receive federal tax information.

TDS is being re-engineered to upgrade equipment and software and to improve processing. Users will continue to access TDS through e-services using their existing username and password; the same transcript request options will be available.

Some benefits from the TDS rollout will include:

- Ability to submit multiple tax forms in one request
- Ability to set tax year range
- More clearly defined screens
- Taxpayer and product information combined to one page
- Ability to add and submit more than one taxpayer in the same request
- Taxpayer Identification Number will default to SSN

For more information on the TDS, contact [Melynda Ebersole](#) in Audit Services.

## You know you're living in 2011 when....

---

- 1) You haven't played solitaire with real cards in years.
- 2) You have a list of 15 phone numbers to reach your family of three.
- 3) You email the person who works at the desk next to you.
- 4) You pull up in your own driveway and use your cell phone to see if anyone is home to help carry in the groceries.
- 5) Your reason for not staying in touch with friends or family is that they don't have email or text messaging.
- 7) Every TV commercial has a website at the bottom of the screen.
- 8) Leaving the house without your cell phone, which you didn't have the first 20 or 30 years of your life, is now a cause for panic and you turn around to go get it.
- 9) You get up in the morning and go online before having your coffee.
- 10) You are too busy to notice that there was no #6 on this list.

**Subject:** RE: October is Bullying Prevention Month

Katherine,

Thank you so much for including Hilton Head Island Middle School in the Governor's trip to Hilton Head. Our students were excited and many additional students expressed excitement and enthusiasm for meeting Governor Haley. She did a dynamic job interacting with the students!!! Middle school students can be difficult to connect with, but Governor Haley did an outstanding job relating to the students and encouraging their interactions.

Once again THANK YOU for the opportunity for our students to learn and meet with the Governor and one of our nation's outstanding leaders!

Thank you,

Jim Shirley  
Principal

**Subject:** FW: October is Bullying Prevention Month

Mr. Shirley,

Thank you for all your help in coordinating the governor's visit to Hilton Head Middle School. Below is the email that was sent out to all SC teachers, SC principals, and SC administrators for them to share with their classrooms.

This includes the video that was shown during the governor's visit.  
I appreciate all your support. I will email you the pictures from today this week.  
Thank you,  
Katherine

\*\*\*\*\*  
\*\*\*\*\*

Dear Teachers, Principals, and Administrators,

October is State Bullying Prevention Month, and I hope that you will take time in your classrooms this month to discuss bullying with your students.

I have partnered with my friends (USC Football Coach Steve Spurrier, Clemson Football Coach Dabo Swinney, Miss South Carolina USA Courtney Turner, and Miss Teen South Carolina USA Keyla Childs) to challenge students to prevent bullying and make South Carolina the friendliest state in the country. We put together a video called, "Cool Kids Don't Bully," that we hope you will show in your classrooms.

**"Cool Kids Don't Bully!" feat. Governor Haley, Coach Spurrier, Coach Swinney, Miss SC USA, and Miss Teen SC USA**

In addition please consider choosing from the following videos to show your students each week during the month of October to remind them that our state is focused on bullying prevention.

These videos encourage students to be nice to each other, to stick up for their friends, and to report bullying they see to an adult. These are small reminders that can go a long way to help prevent bullying.

**Governor Nikki Haley talks about Bullying**

**University of South Carolina Head Football Coach Steve Spurrier talks about Bullying**

**Clemson University Head Football Coach Dabo Swinney talks about Bullying**

**Miss South Carolina USA 2011 Courtney Turner talks about Bullying**

**Miss South Carolina Teen USA 2011 Keyla Childs talks about Bullying**

Thank you for all that you do to educate the children of our state. God bless.

My very best,

Nikki R. Haley

**Subject:** NEWS: USC center will focus on enhancing nuclear energy

U N I V E R S I T Y O F  
SOUTH CAROLINA

## USC center will focus on enhancing nuclear energy

Video: <http://www.sc.edu/news/newsarticle.php?nid=2043#.TpSut96lmU8>

A new Smart State Center of Economic Excellence will be established at the University of South Carolina to develop strategies for improving and enhancing the use of nuclear energy.

San Diego-based General Atomics will give \$900,000 to establish the General Atomics Center for Development of Transformational Nuclear Technologies, university officials announced Tuesday (Oct. 11). South Carolina will match the gift with \$3 million to start the center in USC's College of Engineering and Computing.

USC **President Harris Pastides** said the center will expand the scope of USC's energy research program and have a significant impact on the power industry.

"This is a pivotal time in the power industry," Pastides said. "Demand for safe, reliable and affordable electricity is increasing. At the same time events in Japan have raised the topic of nuclear power and safety. Researchers at this center will work to ensure that nuclear power remains safe, clean and affordable and, in the course of their work, help train a new generation of nuclear engineers for this growing industry."

For General Atomics, the chance to partner with USC and the state of South Carolina offers the opportunity to pursue the new ideas and transformational technologies necessary to move the nuclear energy industry forward.

"We look to universities like the University of South Carolina for the creativity and imagination to come up with new ideas that can solve important problems facing the nation and our world," said **Dr. John A. Parmentola**, General Atomics senior vice president. "We see a natural partnership through our common culture with the University of South Carolina. And we find the state of South Carolina is a forward-looking state in regard to nuclear energy."

Parmentola said nuclear energy has served the country well for the past 50 years, but the industry needs new ideas that will assure it remains safe and economically competitive in the years to come.

"In order to be able to move forward, we need new ideas – transformational ideas -- to exploit an incredibly important resource not just for our nation but for the world," Parmentola said.

A national search for a recognized expert in transformational nuclear technologies and concepts to hold the endowed chair is expected to get under way immediately, said **Dr. Tony Ambler**, dean of USC's College of Engineering and Computing.

Ambler said researchers will concentrate on protecting the country's national security and improving energy independence. Specific areas include technologies tied to recycling of used fuel, better resource utilization and waste reduction, as well as technologies for faster and less expensive construction of nuclear plants. The center also will investigate ways to prevent proliferation of nuclear materials so they won't be used in nuclear weapons or in other ways that jeopardize the security and safety.

The center also will help train new engineers and scientists to replace an aging workforce and meet growing demand for scientists, he said.

“The center will promote development of technologies that will have an enormous impact on the economy in the long term. High-temperature fast reactors will one day provide an abundant carbon-free source of energy that can be used to replace fossil fuels in transportation and go towards saving the economy \$400 billion per year in oil imports,” Ambler said.

### **About Smart State**

The South Carolina Smart State Program was established by the S.C General Assembly in 2002, funded through South Carolina Education Lottery proceeds. The legislation authorizes the state's three public research institutions, the University of South Carolina, Clemson University and the Medical University of South Carolina, to use state funds to create Centers of Economic Excellence in research areas that will advance South Carolina's economy.

The program also supports Smart State endowed chairs, world-renowned scientists who lead the centers. By investing in talent and technology, the Smart State Program is designed to fuel the state's knowledge-based economy, resulting in high-paying jobs and an improved standard of living in South Carolina.

### **About General Atomics**

General Atomics is a San Diego-based innovation firm with a 55-year history of providing successful solutions to environmental, energy, and defense challenges. GA, the location of the nation's largest magnetic confinement experiment, the DIII-D National Fusion Facility, has been performing fusion energy research for over 50 years for the U.S. Department of Energy Office of Science, and is a supplier of several state-of-the-art technologies used in the world's fusion programs. GA also makes the fusion targets for the National Ignition Facility at Lawrence Livermore National Laboratory, the world's largest inertial fusion experiment. In October 2012, GA will host in San Diego the International Atomic Energy Agency's Fusion Energy Conference, the main international biennial fusion conference. For more information, visit [www.ga.com](http://www.ga.com)

**To:** Haley, Nikki  
**Cc:** Pearson, Tim; Price, Blanche  
**Subject:** Beaufort School FYI's

1. The school was using a privately funded program called STRIVE for schooling mentoring. The school did not provide state funds to run program but they did employ the executive director so he could receive health insurance/benefits (his salary was paid by STRIVE and they reimbursed the school for the cost of his benefits).
  - a. The executive director embezzled money from the STRIVE foundation and as a result the school district has discontinued its use of STRIVE
  - b. ALSO the executive director is the Hilton Head Island HS football coach who is being accused of breaking eligibility rules.
2. Shell Point Elementary School was closed by the school district as a cost savings measure.
  - a. The received an "excellent" rating from the state and "meets standards" by the federal gov't.
  - b. The school building was old and the students were moved to 2 different elementary schools
3. Beaufort issue is always state funding of school district
  - a. They receive no EFA funding
  - b. BUT they do receive EIA funding
4. Beaufort has privatized school buses
  - a. SCDE unsure if unionized

## Haley, Nikki

---

**From:** Soura, Christian  
**Sent:** Monday, October 03, 2011 5:23 PM  
**To:** Haley, Nikki  
**Cc:** Pearson, Tim; Shuster, Jamie  
**Subject:** Figures on Unemployment

1. Most recent payment to the feds was on 9/25/11 for \$115M
2. Next payment will be in early November for \$68.2M
3. The total amount of relief this year was \$146M
4. The original loan from the feds topped out "around \$970M"
5. We will have finished paying off the feds by the end of 2015.
6. For businessess wanting their unemployment refunds right now...they CANNOT get it by calling...the preferred way to get it is to request it online via DEW's website ([www.dew.sc.gov](http://www.dew.sc.gov)) - there's a banner on the top of the screen. They click there, then login and fill out a webform. They can also get their refunds by mailing in a letter (not preferred). They'll get their checks in 4-6 weeks. If they do nothing, then the refund will be credited against their account - they won't lose it.

## Talking Points for Governor Haley

South Carolina Travel and Tourism Coalition

Tourism/Higher Education Summit

October 7, 2011 - 10:00 am

Columbia Metropolitan Convention Center

- It is a pleasure to be here today to welcome all of you to the Tourism and Higher Education Summit
- Given the impact of tourism on our state's economy, it is imperative to address both long and short term planning to ensure the vitality of this industry
- And one way to ensure the continued health and growth of tourism in South Carolina is to develop a knowledgeable, well-trained work force
- Internships and apprenticeships, whether in the tourism industry or any other field, provide our students with valuable workplace experience
- Through these types of programs, our students can experience firsthand the application of the principles they have learned in the classroom
- And it also provides opportunities for them to connect with members of the business community that they will join after graduation
- In addition, these programs allow our state's businesses to become a part of the education process – to help shape and mature the next generation of South Carolina's workforce
- I am glad that you all have decided to be a part of this summit today – to take the time to learn more about the programs and opportunities that currently exist
- And I hope that you will also use this occasion to explore new opportunities for internship programs – to gauge the changing needs of our State's tourism business community – and begin making plans for the next generation of workforce development
- Thank you

## **Continental Tire the Americas LLC announces new plant in Sumter County**

*\$500 million investment expected to create 1,700 new jobs; included in the new jobs are 80 positions related to an investment of more than \$4 million to expand its Lancaster County headquarters*

**COLUMBIA, S.C.** – Continental Tire the Americas (CTA) today announced plans to build a new tire manufacturing plant in Sumter County to meet growing demand from both the retail level and automotive manufacturers. The \$500 million investment is expected to generate 1,700 new jobs in South Carolina over the next 10 years.

“This important announcement is part of Continental’s growth strategy worldwide and, especially in this case, for the Americas’ market,” said Nikolai Setzer, member of Continental’s Executive Board and head of Continental’s global tire business. “Increasing demand for Continental and General brand passenger and light truck tires in the U.S., as well as the improved business results for CTA, has made this significant investment possible. On behalf of the 160,000 employees of Continental, I would like to offer our sincere thanks to Governor Haley, the state of South Carolina, the SC Ports Authority and Sumter County.”

The first phase of production capacity at the plant in this project is expected to be nearly 5 million tires when the plant reaches full production levels in 2017. A second phase of the project is expected to bring the plant’s capacity to 8 million units per year by 2021.

“Continental is a world-class company, and it is truly exciting that they have chosen South Carolina for this new \$500 million investment that will create 1,700 new jobs. This announcement is a big win for our state,” said Gov. Nikki Haley.

Continental Tire the Americas’ business growth is highlighted by a nearly 20 percent increase in total volume for the passenger and light truck tire business in the Americas region in the past two years, leading to increased profitability across the region.

“Today’s announcement further strengthens South Carolina’s membership in the automotive club. This is also the fourth announcement this year involving the recruitment of 500 or more jobs,” said Bobby Hitt, Secretary of Commerce.

The new manufacturing facility will be located at a greenfield site off of U.S. Highway 521 in Sumter County. The announcement was made at a news conference today in Sumter at the Sumter Opera House.

“Today’s announcement would not have been possible without the strong support of the state of South Carolina, Governor Haley and Secretary Hitt,” said Jochen Etzel, CEO of Continental Tire the Americas. “South Carolina offered us the most compelling business climate that allows us to create these well-paying jobs with competitive benefits for the people of this great state.”

“The Port of Charleston congratulates Continental Tire. The Port connects businesses throughout the state to markets around the world, and we look forward to serving Continental’s shipping needs,” said Jim Newsome, president and CEO of the South Carolina State Ports Authority.

“Somehow the word ‘big’ just doesn’t seem big enough. In a matter of a few short years, this new facility will go from an idea to one of the largest economic drivers in our community,” said Sumter Development Board Chairman Greg A. Thompson. “At more than \$500 million, it’s the largest industrial investment the county has ever seen. It will have an impact not only on Sumter County and its people, but on workers and families throughout the region. We welcome Continental Tire to Sumter County, and we couldn’t be more excited about both its future and our own.”

“This is a ninth-inning grand slam for Sumter County, a real game-changer, and we’re pleased to help the company create these jobs for our people. Continental clearly recognized that we have a skilled, dedicated and loyal workforce that will help make the company successful. We’re all very excited the company chose to become a part of Sumter County and will be growing with us,” said Sumter County Council Chairman Eugene R. Baten.

“We in Sumter are indeed proud of this announcement. Continental Tire could have located anywhere but the fact the company chose Sumter is a tribute to our community, its people and the entire Sumter team,” said Sumter Mayor Joseph McElveen Jr. “It is also a tribute to Gov. Haley and her Department of Commerce team, led by Secretary Hitt. This is a very big day for Sumter.”

The Coordinating Council approved a \$31 million grant for purchase of and improvements to the site. The project was also awarded a \$4 million federally funded Community Development Block Grant through Sumter County to offset costs associated with road and public infrastructure improvements.

The company will communicate information to potential applicants in the coming months. Job postings can also be found on [www.continental-corporation.com](http://www.continental-corporation.com). The jobs link can be found under the “Continental Corporation” tab on the home page.

Lancaster County -- \$4 million investment, 80 jobs

“In addition to the Greenfield announcement, we are also announcing an investment of more than \$4 million in our Lancaster County, South Carolina headquarters to help meet the needs of our growing workforce,” Etzel said. “We are looking forward to welcoming 1,700 more people to the Continental family starting very soon.”

CTA’s headquarters in Lancaster County is home to nearly 350 employees. The building opened in 2009. Due to the significant growth in the CTA business, Continental has been hiring additional employees at a steady pace. The investment will provide for a 16,000-square-foot addition, bringing the total size of the building to 91,000 square feet. The investment also includes the creation of 80 new jobs over the next four years.

## **About Continental**

With sales of \$26 billion in 2010, Continental is among the leading automotive suppliers worldwide. As a

supplier of brake systems, systems and components for powertrains and chassis, instrumentation, infotainment solutions, vehicle electronics, tires and technical elastomers, Continental contributes to enhanced driving safety and global climate protection. Continental is also an expert partner in networked automobile communication. Continental currently has close to 160,000 employees in 45 countries.
