"Mr. Banister moved that the County surface a dirt section on Wildwood Drive, a city street (entrance to Maple Manor) in the Town of Honea Path and the money to come out of District #3 paving. He said that he would be able, with funds available, to pave the small area which is estimated not to exceed \$1,200. If the money is available, at the time of paving, then the whole job would be paved. Vote was unanimous."

At this time, Council heard from concerned citizens. Mr. Carl Johnson spoke.

Mr. Garrison said that the County was being investigated by the Sheriff's office as a result of complaints by County employees. He said that this was a cloud upon Anderson County and wants the investigation over as quickly as possible; if there has been wrong doings then those people should be brought to justice and remove the cloud from the good people that live and work in this County. Mr. Garrison then asked the Administrator to give as much of his time as possible to these areas, to do our own investigation to find out if there is a lack of procedure or if there is a lack of proper management where we need to make corrections so that in the future our employees feel free to come up through the line of command to let their problems be known. This will enable Council can to take the proper action before some outside agency is asked to come in and "clean our house" for us, if there is a need. Mr. Floyd stated that any complaints by County employees may be justified and may need attention and hopes that this can be resolved as quickly as possible.

Mr. Garrison talked about communication with County employees and a clear understanding with Council as to what Council would like. A letter from Mr. Bill West to Mr. Smoak was read. Mr. Garrison explained that he asked, when he took office, that there be no closed doors to Council and that any member of Council could come and sit down at meetings and listen and ask questions if desired so that Council could learn. Now it must be in writing if a Councilman has a question and then the reply sent out to all members. Mr. Garrison said that he did not want to discourage employees from talking with their Council member or Council from asking for information without interfering with the chain of command that the Administrator has established. Mr. Garrison asked for comments from Council. Mr. Gerrard said that he would like to go out to anyone in this County, whether he is digging a ditch or behind a desk and talk with them and they also feel free to come talk with him and communication is the only way to find out what is happening in the County. Employees are being instructed not to talk with their Council members and not to attend Council meetings, he said. Mr. Gerrard asked to go on record as stating that this practice better stop because these are Anderson County citizens and they pay taxes in this county like everyone else. A Council member should be able to talk with any employee and get answers without them being intimidated that they fear their job is in jeopardy. Mr.

Banister agreed with what was already said and also added that he doesn't mind to stop and talk with any employee and he feels that it is Council's right and the employee's right to talk with Council. Mr. Floyd remarked that Council must be careful as to what is asked. Mr. Garrison said that if there is a problem with Council members directing employees then it should be brought before this group. All Council would like is that when something is asked for that they receive it. Mr. Smoak said that he was glad this was brought up and would reiterate this again tomorrow at the staff meeting.

Mr. Floyd gave the following update on the Detention Center Renovation Committee meeting held last week. He said that the present priority is the kitchen and the intake area/booking. Council must look at maybe cutting back on bed space to accommodate these priorities as requested by the Detention Director. Council will discuss further in executive session at the end of the meeting.

Mr. Garrison presented a figure of \$275.00 for removing the rails, swing gates and repairing one swing gate in the Council Chambers and having them refinished. Council agreed that the rails should be refinished instead of painting. Mr. Gerrard moved to approve the refinishing of the rails and swing gates and the cost not to exceed \$1,000. Mr. Banister seconded and vote was 4-0. Mr. Floyd suggested that seat pads be considered in the next budget.

Vote was 4-0.

approximately 3 acre in the Piedmont/Powdersville area. Mr. McClure will be asked to keep good records as to the savings, if approved, which could justify a couple more once the satellite is in place. Mr. Gerrard seconded and vote was three in favor (Garrison, Gerrard, Banister) and one opposed (Floyd). Motion carried.

This property is shown on a plat prepared by Russell & Axon, Inc. and dated March 11, 1988. It was understood that this property would be deeded to Starr-Iva upon completion of the Frigidaire facilities, but for some reason, this has not been done. Mr. Gerrard moved to approve and Mr. Banister seconded. Vote was 4-0.
