Columbia, SC 29201

Governor Haley,

I'm sending you a copy of a letter sent to Lie. Jack Proffitt with the South Carolina SLED office at the state house. It is concerning a vision I had about a possible shooting like the one that happened at Emanuel AME church in Charleston.

He asked me if I had contacted the Greenwood Sheriffs Dept. here in Greenwood. I told him I had not because I thought they would think I was crazy. He replied, He did not think they would react that way. So I did go ask to talk with Sheriff Davis. The Sheriff was there but they claimed he was in meeting and could not talk. She wanted to know what was this concerning so I gave her a copy of the letter I typed to Lie. Proffitt.

So they sent out one of their famed sheriff Deputies to I guess see just how crazy I really was concerning having a vision of a shooting. I will not go into details about our conversation, but I will say that I walked out and realized that I was being evaluated as someone that had lost his head and was trying to find it.

I called Lie. Proffitt and asked him to toss my letter in the trash and not say anything to you about it. He replied that he would hold the letter just in case something does happen. I must say that Lie. Jack Proffitt acted in a Professional manner and I appreciate his concern.

I just hope that this does not come to pass and that there will not be another senseless shooting like happened in Charleston. I fear that if it does happen it will be to wake our state and nation up and God will send a clear message ~~you~~ "We as a state and nation are not doing enough to solve our problems!" Unfortunately I've done all I can do as one person can possibly do by himself. I leave it in God's hands at this point and time. I had not plans to contact you about this, but I changed my mind. I'm letting you know to look ahead and ask God to give you a dream or vision to help with this problem. I've done all I can do.

I got so mad that I stopped fasting and I stopped praying so God gave me an attitude adjustment. I may have sealed the fate of the Lady Gamecock basketball team.

When they started the playoff games I started praying for their success. I even placed my crucifix on a picture of Coach Staley and Asia Dozer. When I stopped fasting and praying I also took off the crucifixes from the picture. I guess you know what happened the Lady Gamecocks lost the game. The message to this is God does not like a quitter. He needs our help!! to fight evil in the world we live in. It's how we play the big ball game of life that counts the most. At this point we are sitting on the side lines waiting on the half time break God wants to know what are we going to do about it! win the game or give up! Satan would love for us to become quitters that makes his job easy.

I also want to offer an apology to you for writing to Donald Trump asking him not to choose you as a running mate because of the reaction of flag supporters. I'm not sure he would have chosen you, but at the road he is traveling down I'm not sure it would have an impact. I told my mother I'm not sure I'm going to vote this year. I'm just disgusted with the entire situation our nation is facing. I don't agree with a lot of his ideas, The Great Wall of Mexico and now he wants to pull our troops out of Japan and South Korea telling them to build their own weapons of mass destruction. NO! NO! NO! we don't need another arms race. WE need to protect our allies we can't turn our backs on them. We need to turn this over to the United Nations and encourage them to get China more involved in trying to control North Korea. WE have to remain united as a world leader for peace on earth. If not we will surely die. But on the other hand if Hillary wins this next election we are sunk as a nation. Thank you for your time and consideration. May God bless you and keep you in His Spirit.

Respectfully Yours!

Richard M. Witt

USC WOMEN'S BASKETBALL

Ahead of schedule, USC aims higher

Elite recruiting class
gives Gamecocks more
to build with next year

By DAVID CLONINGER
dcloninger@thestate.com

It hurt to end the season, as it should have. While nobody expected South Carolina to have this kind of year, the Gamecocks wanted more for themselves as the season went on. They expected the Sweet 16, but they desired another step or two and didn't get them.

Now comes the much-anticipated next phase. It began in the fall, when four prized recruits pledged to the Gamecocks. It kept building as South Carolina had a season much better than anyone expected. Not many players could wait to get back in the gym so next year could begin.

Next year, USC has the ability to reach a level Dawn Staley always thought the program was capable of. The Gamecocks likely will enter as the preseason pick to win the SEC after returning all of their talent from a team that won the SEC regular-season crown. They also will be expected to advance much farther than the Sweet 16.

"I feel really good about the future of our program," Staley said. "We're probably a little bit ahead of schedule with what we're trying to do as far as continuing to play on the second weekend and the third weekend of the NCAA

Lietenant Proffitt,

Like I said when I spoke with you on the phone I have reason to believe that there will be a copy cat shooting in our state like the one that took place in Charleston at Emanuel AME church. I am very concerned about this and I want to warn Governor Haley and law enforcement officials to please be prepared for the unexpected to happen.

I am a man of Faith in God and His Son Jesus Christ and if I want to get closer to them spiritually I go through a fasting, I don't eat! I will go one to three days without food. I've gone as many as four days without food, but it works for me. I have dreams and visions dealing with somethings I may be concerned about.

" On Saturday the 19th I started my fasting on Sunday morning " I knelt down by my bed and began to pray and as I prayed I had a vision of a young black man holding what appeared to be a green and white flag in one hand and some type of gun in the other he was standing on the American flag and the vision ended. The flag looked like it had some type of symbol on it and it may have been the black liberation flag. " " I think this is a flag that some of the activist groups use. "

Some people may not take this very serious, but for myself I decided it would be in the best interest of our state to contact someone to see if we can prepare for another attack against Christian people or because of their skin color.

We need to realize that we do have a problem with race relations in our State and Nation. WE can't change history we can't change the fact that slavery did happen in our nation as well as other nations. We can't change the fact that our nation was torn apart by the Civil War, War between the States, War of Northern Aggression or whatever you want to call it. The fact is we can't change the past, but we can change the future and that is what we need to focus on.

We are a Nation made up of different cultures and religions, but we don't know nothing about the different cultures, because we are not taught.

Me personally I've always had an iterest in Native American culture and their way of life before Europeans came to this great land. That caused me to want to learn about other cultures of people.

The only way to break the cycle of violence in our state and Nation is to stop hating each other and learn more about the people that make up our great land. There's also got to be a spiritual connection between all of us and between God the Father and His Son Jesus. God is trying to change the world we live in and he's doing it one person at a time. May God bless you and keep you in His Spirit.

Sincerely,

A handwritten signature in cursive script that reads "Richard M. Witt". The signature is written in dark ink and is positioned below the word "Sincerely,".

Plan of Action

1. Contact all state Law enforcement divisions Sheriff Departments, Police Departments you may have to get the National Guard involved to help cover all areas.
2. Inform all congregations white, black, Hispanic, any denomination all churches regardless of its size. Lock all doors after church service starts. Tell all church members not to be late for their church service.
3. If any member of the Church has a concealed weapons permit tell them to bring their pistol with them church concealed in a coat pocket, pants pocket, or in a holster with a dress coat or jacket so it can't be seen. If the weapon has a safety to please keep it on safety unless you have to use it to protect yourself or the congregation. Please think safety first!
4. Be very cautious during Wednesday night service ~~or special~~ or special Bible service meetings that a church may advertise in newspapers, newsletter, on line, etc
5. If a church can afford it they may hire an off duty law enforcement officer for their security.
6. This may happen in a rural area and more than one person may be involved in this crime. Every church should take proper measures to protect their congregation and above all pray that God ^{can} change the hearts of those who would commit these acts of based on the race or religion of others.

This may happen next week or next month, but our state needs to be ready for any type of crime lets just hope and pray it will never happen again.
