Subject: Re: Spartanburg Refugee Resettlement Program

Christina,

The University of Alabama should be proud of you. All the months you spent fighting to save your municipal swimming pool have prepared you well to become possibly the best CONSERVATIVE community activist in America.

Your almost book length essay on refugee resettlement is clear, articulate, informative and persuasive; in addition to being authoritative, well researched, objective, and extensively documented. This information needs to be in the hands of policy makers, political leaders, media producers, journalists, clergymen, and especially the general public.

I will certainly do my small part to help spread this information far and wide. This is not just a local problem in Spartanburg. As you have explained so well, this is a pilot program for what its advocates hope will be the first of millions of refugees that flood this nation exacerbating the already debilitating influx of criminal alien invaders. [I have been told I should no longer use the term illegal alien]

You have clearly sent this essay to a very distinguished and patriotic group of leaders here in the Upstate of South Carolina, most of them our mutual friends. I suggest the inclusion of another seventeen people if anyone has the ability to contact them. This needs to go to every GOP presidential contender, particularly Donald Trump who is already highlighting the negative impact of porous, uncontrolled borders.

Your leadership and extraordinary ability to research and frame important issues make me very proud that I managed your last campaign for Congress. In the event Trey Gowdy moves on in the future, I am confident your name will top a very short list of contenders to represent us in Washington.

Keep in touch, keep us informed of upcoming activities and events where these issues may be raised, and

above all, never surrender!

Warmest Personal Regards,

Dean Allen

Dear Chairman Horton and Council Members:

Thank you for your patience.

Finally, we have this long promised document which explains the history and impact of the Refugee Resettlement Program.

I am sorry it has taken so long - it's a very complicated program and there is an enormous amount of documented information. We have narrowed it down to three
