OFFICE OF THE DIRECTOR

To whom it may concern,

Per the request of First Lady Jenny Sanford, I am forwarding this letter to DHHS regarding a brochure that Ina McKenzie Mims would like to publish. Would it be possible for DHHS to review this concern and contact Ms. Mims regarding her inquiry? Please feel free to contact me with any questions or concerns.

Many thanks,

Curry Hagerty

SEASON'S

GREETINGS

Nov. 12 - 2006

To Mrs. Jerry Sanford - Love to The Honorable Mr. Mark Sanford
Mrs. Sanford,
I have read your memo for the Children of S.C. and unborn
Babies rights.

I fancy myself something of a writer and wanted to write
a Brochure, simple and direct for Mothers-to-Be, explaining
the importance in their unique Role of creating a Human life
and her ultimate Role in it's entirety and growth, importance.
I feel if Mothers-to-Be could get a simple concept of
how vital their care and well-being is for an unborn Baby;
more Public Awareness could be raised and focused.
I wanted a simple Brochure that could be distributed
anywhere Mothers-to-Be would have access to, as
Doctor's offices, DDS - Any distributing point possible.

Your sending of the possible Brochure would be
Appreciated, whether you felt it could be Utilized, with
my Permission, or whether you considered it Trust-Less
material - The Option is yours. It is inspiring in any way, my desire are
to find study of S.C. & consider you a Role Model for S.C.
Mothers - First Mother Also. Thank you, Sam

For McKing memo of Oct 401 - 3201
Mon Nov. 13, 2006 - Publisher S.C. - 29204

SEASON'S

GREETINGS

SO, YOU'RE GOING TO BE A MOTHER,
Well, this short Brochure will let you in on the
job you have undertaken. You are the only
person who can do this job.

Be you a Teenager or an Aged Woman,
You are doing the same Function, that of
giving life. You have your Creation (Baby)
in your Internal Person (Womb.)

Knowing Baby may seem ^{incomprehensible} - (He or
She or both) will press upon your Bladder,
May seem ungrateful by kicking you in
your Tummy; But let's recognize Baby
in Baby's situation.

True, Baby must come via your Body.
He is going to grow in an expandable
Sac - in a Fetal position. He is going
to be dependant on you alone for their
new survival before making their

Deliver into the outside world. We is going to depend solely upon you for food, for blood supply, in your body for air and your mental outlook is going to determine their Personality Development after and before Birth.

After Birth, you may think - well, I'll get even for the kicking, for possible loss of sleep. I'll make Baby eat Beet, Corns - maybe let them run wet a minute longer than necessary - let them cry a second longer than Baby has to, but in the meantime give Baby a much-needed break.

To keep Baby healthy and take care of Mother at the same time - let healthy and regular meals. Take no Druggs, even over-the-counter without Doctor's sanctioning them. Try to Relax - keep a good Mental Outlook - listen to music - Read - do whatever enjoyable aspects of life. When you're happy!

Baby in the womb picks up in it. When you're like you're like you, Baby in the womb picks up on that also. Get plenty of rest, because when you're resting and at Peace, Baby usually is also.

SEASON'S

GREETINGS

Mother is performing the ultimate - ^{Giving Life;}
something no other person can do for her Baby,
but how Truly.

So, lean back, relax, get that stress and
let Mother Nature and you do your things
Everything, you don't understand ask your
O.B. or Medical Doctor. Enjoy your Repose
As Mother and Baby Bond Together!

Note!

Visual Pictures of various stages of Embryo to
Fetus - to delivery could also be included! Printed
for Special (the Hispanic Population in S.C. has
increased) in English & Spanish!
