Subject: I-73

---

My weekender is on I-73, since the Army Corps and DHEC are taking public comments on DOT's application. The governor's previously said I-73 is key to bringing business to the Grand Strand. Does she still support the project? Proponents, including DOT Chairman Wooten, say their focus is on building the southern portion from I-95 to the Conway Bypass. Does she agree and how does she think it should be funded?
