---

East Cooper 65

- (1) PC & Printer for back counter
- (1) more testing machine (we have an extra kiosk); already have (2) machines
- More windows to better serve customers. Office has (6) windows
- Larger facility - I spoke with you a few years ago about the land that was purchased on Long Point Rd for the Mt. Pleasant DMV facility. You stated that there was a problem with the land and that other options were being considered. Is there any update?
- Storage - We have a problem with storage. We are required to hold the reports and tax receipts for 13 months, store plates, supplies, etc. and utilize the back room area as a break room. With all these items in a small area, plus lockers is a fire hazard.
