This is a big step forward from yesterday, but we obviously still have some work to do. Darrell and I discussed it again this afternoon. I think we'll see good progress on the improvement plan, as well as the presentation, this week. Darrell is helping Sylvia implement a more formal project management approach, so we should start to get more performance measurement as we go (as opposed to activity or task reports).

Hello Austin

First let me apologize for sending this report in late. I know you want it at 10am every morning and we are shooting for that goal. We had a productive meeting today with Darrell Scott to work on a better dashboard type report which you should see soon. In the meantime, the attached report is designed by Division/Office so you can review what each area is doing to achieve progress with our plan. Again, please forgive us on the timeliness and the draft format.

Thanks,

Brett
