I've gotta jump off to put out a couple other fires - I'll be around later if you need to catch up on anything.
Thanks.

Heh heh heh - Yarborough led off with the point I would have made.

Quick question while they're going back and forth...if privacy's an issue, could we ask ACT to anonymize the data by giving us NAICS codes or something instead of the firm names? At least as a start? Then we could work on the sector stuff, at least.
