Hello! I would like to ask you something, my question is, a 2 years old is considered in the 6 pp per site or that age does not count

Noemi - If the 2 year old makes seven people, this should not be an issue.

What will be the minimum age

The maximum number of people per site is 6 people or one family. A family is defined as 1 or 2 adults, their children and/or other immediate family members.
