Message:

Dear Governor:

I purposely put The Flag because maybe I am not talking about the Rebel Flag. You succeeded in getting it down so whats next. The American Flag is a symbol of slavery, mass executions, and movement to Reservations to the American Indian. Far more cruelty was imposed on them and still is , much more than the "African American" ever even dreamed about. Or does that matter? So why not take the American Flag down as well and lets come up with a politically correct flag that wont offend anyone. Louis Farrakan States that the American Flag has far more hx of oppression to the African American than the Rebel Flag ever did and he wants it down. If that Scum that executed those poor parishoners in Charleston was waving an American Flag would you have demanded it come down as well?

I really thought we had a governor with backbone when we voted you in. One that stood up for all people, who wouldnt fold when someone was "offended". Guess I was wrong.

God Bless America, Home of the Free because of the Brave, Not politicians who cower.
