Subject: SC DEW/Lexis Pilot Proposal

Attachments: SC DEW Collections Pilot Overview copy.pdf

---

Ted and Christian,

As you know, last spring Lexis Nexis started meeting with DEW leadership regarding ways that they could assist the agency in identifying individuals that were/are receiving UI benefits either fraudulently or by mistake. During the meetings it became clear that the agency was also in need of assistance in the area of collections as well.

As you can see in the email below, Lexis proposed doing a "no cost" pilot for the agency to demonstrate the value that they feel confident they can bring to the agency. Chris (Lexis rep) has followed up with a couple phone calls, but not heard anything in response.

It seems like a pretty obvious opportunity for DEW. They get to see how Lexis will perform before they agreeing to any contract, that way there is no question of the value Lexis would bring the agency. I know they have a lot going on over at DEW, but would one of you mind checking to see what their thoughts on this are?

Please let me know if you need any more information or have any questions. Thanks.

Jeff

Joe,

Here is the scope for the pilot project we discussed last week. Please review.

Thanks,
