First of all I never said anything about FBI investigating her this is in your mind . Trump is just uninformed and would not be his fault. He has a big job to do. I certainly would try and expose her every chance I got from my phone laying in the beach in Florida! I love Donald Trump and he will be great for this country and he has a great family at his side. Sorry Hilary lost, and by the way prove you voted and I will pay you 500!

ABC and NBC Evening News just reported that Nikki Hailey will either be named Secretary of State or to another top post in the Trump administration. But she is now the surprise front runner for SOS.

Under the circumstances, I could not maintain my silence.  
How do you feel about Trump now, Skip?  
Maybe you should get in touch with Trump and show him your evidence against her and/or inform him of the FBI investigation. He should know about those, don't you think?

I hope that before she leaves SC (she is CC'd here), she deals with you, Skip. Harshly. Time to get out a last-minute email attack on her before it's too late.
