Changes to Agencies:

- Department of Education: various and sundry corrections
- Lottery Expenditure account – sheet complete
- USC – Columbia. Deleted EIA-related lines that we did not fund this year.
- Health and Human Services
- Department of Mental Health – added back \$670,000 in double-counted base reduction. The new number is updated for use in the healthcare chart.
- DNR – I am going to reboot this entire agency. There shouldn't be more than about \$50k in difference on the general fund; we have just moved so much around that I want to start from scratch
- PRT – let's talk a bit about intent and reallocationsno GF Change.
- Conservation bank – no, the proviso is no longer necessary because the statutory trigger had been met to fund the bank. IDEA! What about a proviso that limits the ability of the bank to obligate funds beyond a BEA certified amount. Accompany this with a proposed statutory change. We could also think of a limit on administrative fees making the overall authorization irrelevant.
- SLED – Allocations that we're likely not going to accept.
- PPP - I need to talk with their budget manager first thing AM. I have continued doubts about their personnel allocations.

- Added OEPP bulletpoint re: Guardian
- Fixed the tab/indent issue in all those NR and proviso tables (I think)

You probably oughta go to v30 when you get started. Depending on what time you wrap up (let me know when you do), I'll probably try to insert the additional provisos later (for the transportation package). Thanks.
