Chairman Holden presented Resolution #591 stating that the South Carolina State Senate Judiciary Committee has recommended the partitioning of Anderson County among five Senate Districts, with just one resident Senator. The resolution expresses Council's opposition to the division of Anderson County in such a manner that dilutes the voice of the citizens of Anderson County within the South Carolina State Senate and divides Anderson County's State Senate representation among so many non-resident State Senators. The resolution recommends that the final South Carolina State Senate Districts be created in such a manner that will minimize the dilution of representation of Anderson County citizens, and that will enhance Anderson County's economic and social links with a neighboring county with which Anderson County will grow and prosper into the twenty-first century. Council heard from Mayor Marion Middleton and Mr. Grady Ballard who spoke in opposition to the lines. Mr. Holden moved to approve Resolution #591 as read and Mr. Allgood seconded. Vote was unanimous.

Mr. Robert Wiles, representing the Department of Social Services, talked about the County providing a new building for the department. He said that the 1938 Public Welfare Act states that county governments are responsible for providing suitable office space for County Department of Social Services. The County has provided the space for some 50 years; however, they have outgrown its present space needs and are requesting more suitable office space. Other reasons were given for a need for a new building. He asked that Council
