## South Carolina State Parks

at 15:06:34 on 8/30/2011 UTC ·

Irene did impact some of our sea turtle nests along the SC Coast. Watch this video as Interpretive Ranger, Ann Wilson, from Myrtle Beach State Park explains what happened and efforts taken post-storm.

### Irene washes away 20-30 sea turtle nests on the Grand Strand

MYRTLE BEACH—The rough waves of Hurricane Irene pulled sand from as far back as the dunes in some places along the Grand Strand, but what some might not know, is that is where sea turtle nests usually are.
