## South Carolina State Parks

at 12:00:00 on 8/30/2016 UTC · 🌐

Another AED -- this time at Barnwell State Park! We would like to thank Captain Phil Clarke with Medshore Ambulance Services, and Roger Riley Director of Barnwell County Emergency Management for donating this AED. Barnwell State Park is several miles from the nearest medical facility, and having a AED on hand, with a staff that is Red Cross certified and trained, could help save a life! Thanks to Park Tech, Jamie Baughman who worked to secure this donation for the park.

**Lower Savannah River Alliance** Another reason to VISIT Barnwell State Park!

**Tom Cole** I think every duty ranger should have an AED in his or her possession.
