Subject: Nominations ~ Website email from Jim Roberts

Lt. Governor Bryant, Give the duly elected President, the men and women he selects to run the administration. We are sick and tired of bureaucratic, political maneuvering that keep the good business of government from getting anything accomplished. We elected President Trump to lead an entrenched body back to sanity. Give him your full cooperation. If he fails we will elect a new leader. If you fail to support him, we will find new representatives. Thank you. Jr
