South Carolina State Parks

at 12:15:00 on 7/08/2016 UTC · 🌐

Goodale State Park in Camden is getting a new heart defibrillator thanks to Black River Electric Cooperative. The donation is part of a major effort by South Carolina State Parks to put an AED (Automated External Defibrillator) in every state park this year. Black River Electric Cooperative President Charlie Allen made the check presentation this week.

The South Carolina Park Service has had 30 AEDs donated since the first of the year. If you would like to make a donation to South Carolina State Parks to help with this AED project, you can contact Lou Fontana at lfontana@scprt.com.

Lower Savannah River Alliance Good news!

Wilson H Carol While visiting the beach access at hunting island I noticed there were no showers on site except outside. It sure would be nice to maybe have some on premises so people could shower before leaving the beach.
