

To the Honorable Governor Nikki Haley...  
my name is Kristan Collins. I  
am a 30 year old mother of  
three boys. I have been battling  
with bipolar disorder and border-  
line personality disorder for  
years. I also have hepatitis C.  
I have been applying for disability  
since October 2013. I have been  
denied repeatedly. Could you please  
help me in asking disability to  
approve me for benefits. I suffer  
from the depression and mood  
swings everyday. I thank you  
governor and I appreciate every-  
thing you are doing.

Thanks,

Kristan Collins
