Subject: Follow-Up Question on FY 2013-14 Budget

Carri,

Following-up on the call from a few minutes ago...

The Board of Financial Institutions' FY 2013-14 budget request includes a request for additional Other Funds authority in the amount of \$99,579 for "Consumer Finance – Other Operating." We asked BFI for an itemization of that amount (which I didn't have in front of me when I called, but was just handed) which shows \$24,059 of that amount marked for "DCA Partnership," which I'm interpreting as essentially a transfer.

I want to be sure that I'm comparing both agencies' submissions appropriately, so what I'm trying to figure out is (1) is that really a transfer and (2) are those funds built into your assumptions for your budget request next year, and if so, at that specific level?

Feel free to call or email whenever you get a chance. We'll double-back with BFI on this point as well...I just wanted to compare notes from both sides so that nothing essential is accidentally paid for either zero times or twice. Thanks.

CLS
